A huge congratulations to Fiona Stanley Hospital (FSH) medical intern Dr **Alexander Armanios** who recently won the Young Scientist Award at the 7th World Congress on Controversies in Breast Cancer meeting in Dubai!

Taking out the award for his audit on the FSH Breast Centre breast reconstruction practice, Dr Armanios was competing against presentations from the US, UK and the UAE.

As the only intern at the conference, this is a wonderful accolade for Dr Armanios and FSH. Congratulations!

👤 with Dr Saud Hamza and 1 other
